Welcome to the National Conference on Postmodernist Media and Today Society: Prospects and challenges. Over the past decade media has infused itself in the lives of every young person in the world today. The media we use today are ever growing, evolving and changing. The way we communicate has also changed dramatically. Through the crossing of international and regional boundaries, digital media has transformed the traditional modes into one concerned with instant delivery of messages. Technological innovations have created an ever-growing media net between users and consumers become increasingly blurred, questions of media accountability continue to remain an important source of discussion.

This National Conference on Mass Media and Today Society: Prospect and Challenges is the premier forum for presentation of research and new advances in the fields of theoretical, experimental, and applied Media, Journalism, and Mass Communication. The major goal of the conference is to provide a platform to bring together, researchers, academics, policy makers, civil society representatives, and other experts of Media Sciences from all parts of the country and to understand the latest trends in communication and media. The conference will also discuss theoretical as well as empirical methodologies to help devise appropriate strategies for policy makers so as to find workable solution to address the challenges being faced by our society due to the penetration of Postmodernist Media.
